Prince Emanuele Filiberto of Savoy the Prince of Venice is a high level banking authority and the primary owner of the Venetian Mafia. Venice was a major banking and merchant center for centuries. The Savoy's top white collar Venetian mobsters are the wealthy Cipriani family which own restaurants, bars, clubs, and hotels with Maggio Cipriani as a current member. The Ciprianis were found guilty of tax evasion in the United States and they used private bank accounts in Luxembourg. The Ciprianis paid a fine to get out of prison. The Ciprianis also employed the convicted mafia financier Dennis Pappas as their Vice President of Cipriani USA. Look how evil Countess Viola is. Look at the psychotic and evil look on her face. These child murdering whores are so obsessed with themselves that

they attack people just for not finding them attractive. They want to be worshiped. That is how vain they are.

It seems as though earth is ran by reptilians with no compassion for human life. Humans are special we have the spark from our source creator. They want more than anything to possess it but can only manufacture a small likeness through transhumanism,they can never replicate it-it was never theirs to replicate-ever.

They are narcissistic psychopaths. As such, they have no emotional empathy and they are completely self-absorbed and vapid. They are anything but normal human beings.
